CONTENT

→ 1ST WEEK

Observation of School Site and Activities

- (i) Introduction of the School.
- (ii) Framing of Time - Table
- (iii) Attending and organising Morning Assembly.
- (iv) Sharing ideas with teachers and head - master of their cooperative school work activity.
- (v) Observe and make day - to - day school activity.
- (vi) Report of an in depth study of one activity everyday.
- (vii) Organising literacy activities (debate, seminar, quiz, word - games etc.)

2ND WEEK

- (i) Participation in school campus cleaning and beautification.
- (ii) To aware students about sanitation and ventilation.
- (iii) Organise environmental awareness program in school with collaboration of nearby society .
- (iv) Peer group teaching in selected subject – free - lesson . (Teaching)
- (v) Supervision of different school may apply observation schedule cum rating skill to check skill and student - teaching skill .
- (vi) Supervise and evaluate teaching and give suggestion for improvement in following points .
 - a) Introduction of lesson .
 - b) Presentation of lesson .
 - c) Black - board work .
 - d) Evaluation or feedback .

3rd Week

- (i) Continuing observation with proper questionnaire showing reliability, validity and objectivity.
- (ii) Delivery of three lessons in selected subject on pedagogy of school subject.
- (iii) Maintaining of school library records and interaction with librarian for their work.
- (iv) To aware students about physical fitness exercise, yoga etc.
- (v) To know different laboratory in school (maintenance, structure of laboratory and equipment / apparatus available in laboratory etc).
- (vi) Organisation of sports / indigenous sports (Kho - Kho, Kabaddi etc).

4th week

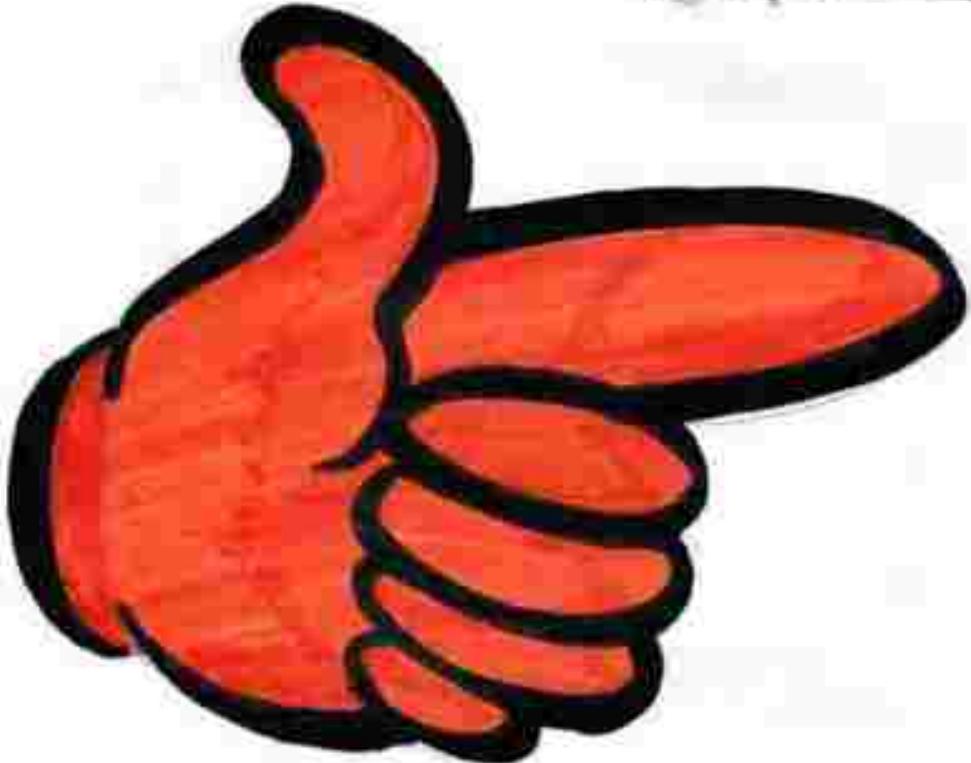

1. Prepare report on :
 - Availability of finance / donation
 - Transportation system
 - Infrastructure
 - Teacher - student ratio ... etc
2. Take a suggestion for improvement in overall activities of school

3. Know about maintaining school records.
 - Preparation and Publication of school results.
 - Income - Expenditure records.
4. Organisation of Cultural activities.
5. Making a report on all experiences and activities during four [4] weeks.
6. Report on suggestion for betterment of school activities.
 - Diagnostic classes for school students.
 - Faculty Improvement / training programmes.
 - Different level of teaching behaviour.

Knowledge, Understanding, Application, Evaluation, analysis and creation or creating the ability to apply it in an unfamiliar students.

Prashant

The
First
Week...

Our 1st day in the School

Introduction of the School

→ The Kasturba Gandhi Balika Vidyalaya (KGBV) scheme was launched by the Government of India in August, 2004 for setting up residential schools at upper primary level for girls belonging predominantly to the SC, ST, OBC and minorities in difficult areas.

→ In the beginning, this scheme was started as autonomous one.

→ 1 April, 2007 this scheme was link with Sarva Shiksha Abhiyan.

→ KGBV is being implemented in educationally backward blocks (EBBs) of the country where:

→ The number of SC, ST, OBC and minority populations should be more.

→ Where girls have low literacy than national average and/or a large number of girls out of school.

→ There are no upper primary school and travelling facilities.

Dr. Jayashree Babu

People are always welcome in what
they do not believe.

Introduction and meeting with
students on the very 1st day.

→ The scheme provides for a minimum reservation of 75% of the seats for girls belonging to SC, ST, OBC or minority communities.

→ The remaining 25%, is accorded to girls from families below poverty line.

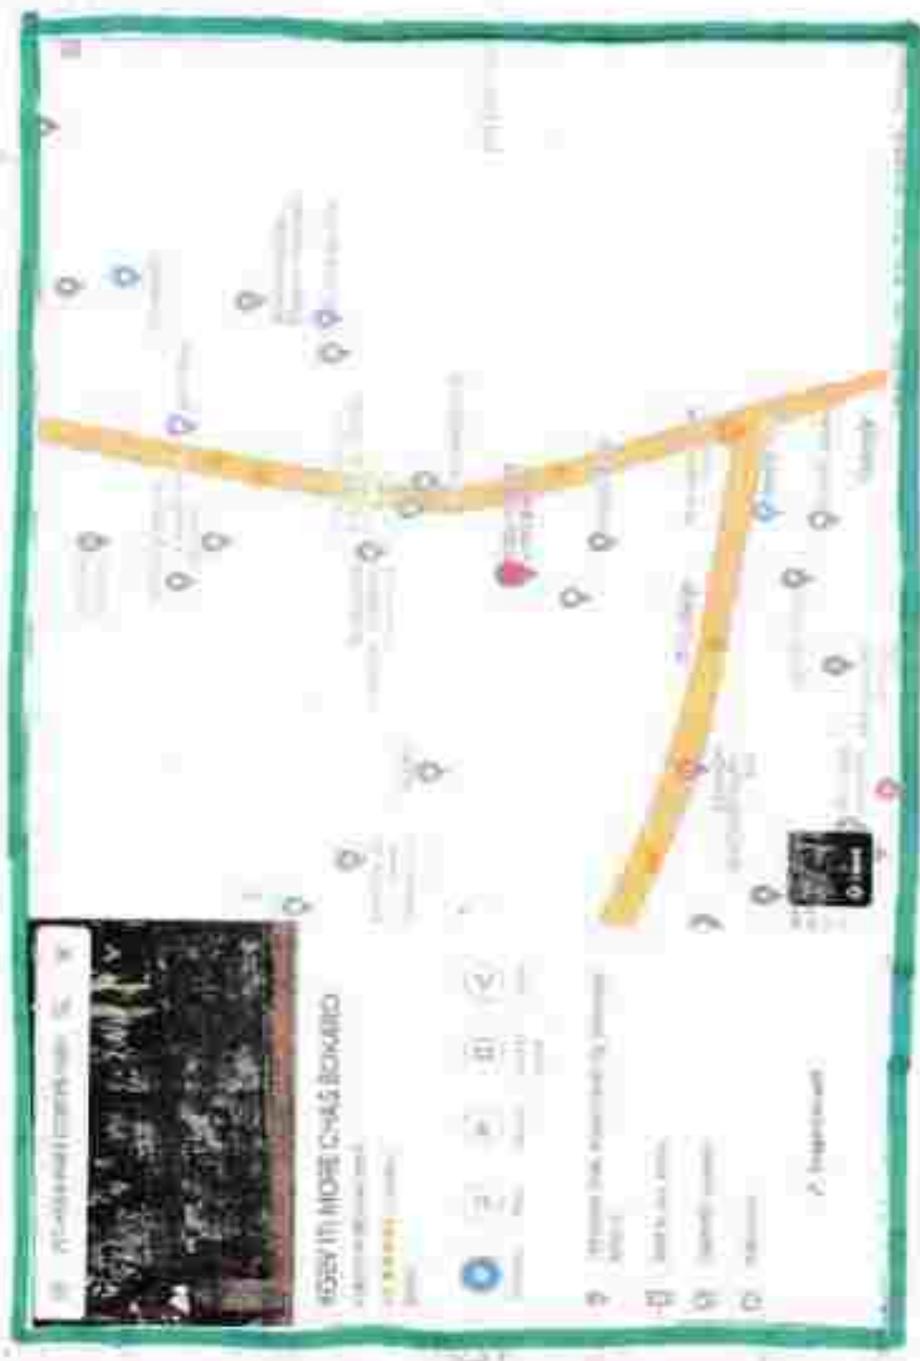

→ Girl students in the age group of 10-14 years who are illiterate or dropped out of primary education are made to undergo six-months long bridge course in order to admit them direct into class 6-8 in KG/BV.

→ Facilities at KG/BV :

- (i) Free Textbooks and Uniforms
- (ii) Sports Material
- (iii) Hostels
- (iv) Free Education
- (v) Free Meals
- (vi) Scholarships
- (vii) Medical Facility
- (viii) Vocational Training and guidance
- (ix) Other necessary materials

→ Objectives :

- (i) To ensure access and quality education to the girls of disadvantaged groups of society.

Location of KG BV, Chas.

- (ii) Ensure greater participations of girls in education.
- (iii) Increase literacy rate of girls in society.
- (iv) Decrease gender literacy gap.
- (v) Retention of girls.

→ KGBV, Chas was established in 2007 and it is managed by the Department of Education. It is located in CHAS block of BOKARO district of Jharkhand. The school consists of Grades from 6 to 12. The school has Government building. It has got 6 classrooms for instructional purposes. All the classrooms are in good condition. It has 2 other rooms for non-teaching activities. The school has a separate room for Head master / Teacher. The school has Pucca boundary wall. The school have electric connection. The source of drinking water in the school is Hand Pumps. The school has 10 girls toilet. The school has a playground. The school has a library. The school has 9 computers for teaching and learning purposes.

Classwise & Categorywise enrolment

In KGBV, Chas, two times prayer is held i.e., in the morning as well as in the evening everyday. As, in this school, hostel facility is being provided to the students as well as teachers.

Also, Yoga is given preference daily to keep the students physically as well mentally fit and healthy.

The warden of the school is Dr. Kunari Nibha Tha. She is very strict towards maintaining discipline among students. She is very clear in her thoughts - for what is beneficial for her school as well as students to grow. She is also very active in organising various co-curricular activities. She guides her students ~~away~~ in a smooth manner in all perspectives.

The following teachers of the respective subjects are :-

- | | | |
|----------------------|-----------------|---|
| i) Shashi Bala Singh | - Science | } |
| ii) Tawa Sarkar | - Maths | |
| iii) Prite Jaiswal | - History | |
| iv) Neetan Singh | - English | |
| v) Jayoti Kunari | - Science (Bio) | |

Uniform of the School

There are approximately 900 students in the school campus who lives in the hostel. So, to take care of them, there are 3 guards; 2 for day and 1 for night namely:-

{ Day Guards : i) Soni Kumari
ii) Laxmi Devi }

{ Night Guard : i) Bhagirath Kandu }

Also, 4 cooks are there in the school to provide food for the students.

i) Allamani Devi
ii) Soniya Devi
iii) Chitra Devi
iv) Asha Devi

So, the co-operation and coordination among the students, teachers, guards, cook is extremely wonderful. Here, the warden of the school plays a crucial role in maintaining and taking all the sweet and strict decisions to run the school smoothly.

ABOUT

Time - Table

A well-constructed time-table establishes a natural rhythm and routine, which can be comforting to teachers and students. Having a plan as a learner is very important as it helps us maximise and prioritise on the things that are of urgency or importance.

→ Need for a Time - Table :

A time-table is necessary for the proper management of the affairs of a school. Through this, the headmaster knows the work every class and every teacher. The time table will help him in carrying out of the work of the school effectively.

→ Importance of Time - Table :

- (i) It ensures orderly work. It assigns proper persons for particular classes during appropriate periods in a proper manner.
- (ii) It saves the time and energy of teachers and pupils by preventing duplication and overlapping.

- iii) It ensures right allocation of time for different subjects and activities by giving proper weightage according to needs.
- iv) It ensures proper distribution of work among teachers.
- v) It indicates habits of orderliness, steadiness, regularity and alertness among pupils and teachers.
- vi) It helps to maintain discipline and order.
- vii) ~~Prevents~~ A time-table is a detailed plan showing the schedule of time allotment to various subjects and activities. Usually, time-table is prepared for a week, to be repeated. All the work in school is carried out systematically in tune with the time-table. The successful working of a school depends on a suitable time-table. Hence, time-table is said to be second clock.

Attending and organising MORNING ASSEMBLY

The act of morning assembly is not very new in Gurukula as well as for us because it is a part of our tradition. All the students used to gather, meditate and discuss the daily routine in those assemblies. Almost in every school, each morning, students assemble at one place for the morning assembly. Every school knows the importance of morning assembly.

During morning assembly students from different classes stand together. This develops a feeling of connection and unity among the students.

Morning assembly addresses information and instruction that every student should know. This way students understand the school curriculum more clearly.

Morning assembly also encourages students to speak in front of the school and hence build confidence in students. A morning assembly leaves the student with a positive

Prayer of the School.

Formation of straight line
(height wise) for the prayer.

mindset to continue with the studies throughout the day. A morning is perfect representation of the school where all students from different class and branch stand together along with the school teachers, principal and support staff.

The program of the assemblies has the potential to nurture and maintain a positive, healthy school culture which binds everyone together.

School building helps building a culture of communication and representation of academic and co-curriculum activities. The main intention of the school assembly is to develop a feeling of unity among all the students and teacher.

Morning assembly is a must thing to begin the day with. We need to integrate the knowledge with the outside world. Remember, 'the school is a small world and world is a very big school.' Morning assembly also provides physical, mental exercise for the students.

→ About KGBV, Chas Morning Assembly

In the above manner, KGBV, Chas also begin the day with the morning assembly. All the students of Std VI - XII stand in a queue according to their classes.

Students in "ATTENTION" position

Taking the "PLEDGE"

PLEDGE OF THE
COUNTRY.

→ The morning assembly song or the prayer of the KGIBV, Chas school is :

‘तू ही राम हैं, तू करीम हैं रहीम हैं,
तू करीम कृष्ण खुदा हुआ ।
तू ही बोहिगुरु, तू योशुमसीह
हर नाम में तू समा रहा ॥

तैरी जात पाक कुरान में,
तैरा दर्श वेद पुराण में ।
गुरु ग्रन्थ जी के बखान में,
तू प्रकाश अपना दिला रहा ॥

अरदास है कहीं कीर्तन,
कहीं राम चुन कहीं आहन ।
विधि भेद का है ये सब रचन,
तैरा भक्त तुझको बुला रहा ॥

→ After the prayer, some students come in front and recite ‘Thought of The Day’, read ‘News Headlines’, ‘Quiz of The Day’, ‘Take pledge in the begining’. Then some exercise they do.

After all these, atlast at ‘Attention command’ National Anthem ‘जन गण मन’ is being sung by all.

Then all of them go to their respective classes in a very disciplined manner.

Doing P.E.T with students

P.E.T after morning assembly

National Anthem

जन-गण - मन अधिनायक जय है
भारत - भाग्य - विधाता ।

पंजाब सिंधु गुजरात मराठा
द्राविड़ उत्कल बंग ।

विध्य हिमाचल यमुना गंगा,
उच्छ्वस जलधि तरंगा ।
तव शुभ नामे जागी,
तव शुभ आशिष माँग ;
गाहे तव जय गाढ़ा ।

जन-गण मंगलदायक जय है ,
भारत - भाग्य विधाता ।
जय है , जय है , जय है ,
जय , जय जय , जय है ॥

Indian Constitution

PREAMBLE

हम, भारत के लोग, भारत को एक संपूर्ण प्रभुत्व-संसद, समाजवादी, पंच-निष्पेक्ष, लोकतंत्रात्मक गणराज्य बनाने के लिए तथा उसके समस्त नागरिकों को:

सामाजिक, आर्थिक और राजनीतिक न्याय, विचार, अभिव्यक्ति, विश्वास, धर्म और उपासना की स्वतंत्रता, प्रतिष्ठा और अवसर की समता प्राप्त करने के लिए,

तथा उन सब में व्यक्ति की गरिमा और राष्ट्र की एकता और अखंडता सुनिश्चित करने वाली दंधुता बढ़ाने के लिए

दृढ़संकल्प होकर अपनी इस संविधान समा में आज तारिख 26 नवंबर, 1949 ई. (मिति मार्गशीर्ष शुक्ला सप्तमी, संवत् दो हजार छह विक्रमी) को एतद्वाय इस संविधान की अंगीकृत, अधिनियमित और आत्मार्पित करते हैं।

Primary School REPORT

Sharing ideas with the
Principal / Head - master of
the School

Sharing ideas with teachers and head - master of their cooperative school work activity.

When we reached our allotted school ie., KGIBV, Chas we were asked to meet the Principal Mam for knowing the school's functioning time-table, curriculum etc. She told us about our role play of how we observe the school's curriculum. She discussed about the academic roles and co-curricular activities organise in the such school such as on every Saturday cultural activities will be organised and weekly test will be held on Monday.

Principal Mam told us to maintain the register for our day-to-day work done in the school like what we have observed, the blackboard work, the teacher's teaching way, students' attentive nature, the work outside the classroom, the communication skills, the body language, the interaction ability with students etc.

Sharing ideas with teachers
of the school

Observe & make day-to-day School Activity.

After observing the very first 5 days of our observations in the given school i.e., KGBV, Chas, we found that according to the time-table, Monday - Friday only academics are covered and Saturday and Sunday are left over for organising various activities.

As every morning, thought (both in Hindi and English), news headlines, 10 Quiz questions are read by the students and P.E.T is done after the assembly.

Since, this school is a residential school, Sunday is also a working day for both teachers and students. So, various activities are organised in school to make them learn co-curricular activities.

Various activities held in school are every Saturday and Sunday are:-

Music, Painting, Dancing, Stitching and Knitting, Quiz and Yoga classes every week.

REPORT

an in depth study of
activity everyday.

Dancing Practice

Singing

MUSIC

गीतम् , वाद्यम् , तथा नृत्यम् त्रयम्
संगीतम् उत्तमो ।

The art of arranging sound to create some combination of form, harmony melody, rhythm or otherwise expressive content.

Benefits of Music education in Schools

- i) Breaks Monotony - Music classes are a great way to break class monotony. It helps students to unwind and get a break from their classes.
- ii) Helps to remove stress - Students get stressed due to many factors like competition among students to stay top in the class, fluctuating grades or preparations for exams. This can be both emotionally and physically draining. Music classes at schools can help them reduce stress and depression, thus preventing physical health issues.
- iii) Helps with Better Problem Solving - It's said that music and mathematics go hand in hand. It helps to develop cognitive abilities

Art & Craft

Model for
Science Exhibition
"Pollution free
Environment"

PAINTING

The expression of ideas and emotions, with the creation of certain aesthetic qualities, in a two-dimensional visual language.

There is no doubt that the arts are fun for kids.

Importance of Painting in School are:

- i) Creativity - Creativity is the field with no barriers, but only science and math skills don't allow the child to express themselves fully while art provides them better ways of varieties to express and involve human feelings.
- ii) Improve Academic Performance - The skills that are essential for academic achievement can be developed by involvement of art activities.
- iii) Confidence - While mastering the arts children also build up self-confidence and feel special about themselves.

Yoga:

Students of Class VII

Students of Class VI

YOGA

Yoga is a system of exercises for the body that involves breath control and helps relax both your mind and body. A Hindu philosophy which aims to unite the self with the spirit of the universe. Yoga is basically a spiritual discipline which is based on an extremely subtle science that concentrates on bringing harmony between mind and body.

The word 'Yoga' is derived from the Sanskrit word 'yuj', signifying 'to join' or 'to combine' or 'to unite'.

Importance of Yoga

1. Yoga improves strength, balance and flexibility :
 - Slow movements and deep breathing increase blood flow and warm up muscles, while holding a pose can build strength.
 - TREE POSE : Balance on one foot, while holding the other foot to your calf or above the knee at a right angle.
2. Yoga helps with back pain relief :

→ Yoga is as good as basic stretching for easing pain and improving mobility in people with lower back pain.

→ CAT - COW POSE : Get on all fours, placing your palms underneath your shoulders and knees underneath your hips. First, inhale, let your stomach drop down toward the floor. Then, exhale, let your navel toward your spine, arching your spine like a cat stretching.

3. Yoga benefits heart health :

→ Regular yoga practice may reduce levels of stress and body-wide inflammation, contributing to healthier hearts.

→ DOWNWARD DOG POSE : Get all your fours, then tuck your toes under and bring your sitting bones up, so that you make a triangle shape. Keep a slight bend in your knees, while lengthening your spine and tailbone.

Numerous studies show yoga's benefits in arthritis, osteoporosis, balance issues, oncology, women's health, chronic pain and other specialities.

Quiz in Class IX

Quiz in Class X

QUIZ

A game or competition in which somebody asks a lot of questions in order to get information and we have to answer questions.

Importance of Quiz in School:

Besides the obvious academic benefits of expanding a student's knowledge and exploring new skills at an early age, quizzes redefine the education system in significant ways:

→ Interactive platform: Today, quizzes are interactive platforms where students are not participating to take home a prize or get famous overnight, but to gain knowledge, seek opportunities to excel beyond academics and secure their future.

→ Changes scope of learning: Since questions are based out-of-syllabus and require critical thinking and extensive research, students get into the habit of innovative learning from an early age.

Organising literacy activities (debate, quiz etc)

QUIZ

In the school, KGBV, Chas., quiz was organised by me for Class X. Principal Mam has advised to prepare the quizzes based on taught topics in the last 5 days of the working days. So, I taught the chapter 'Carbon and its Compound' of the subject 'Chemistry' ~~in~~ from Monday - Friday and conducted the Quiz on Saturday.

Students were excited and also took interest in participating meanwhile I was also curious to know my teaching capabilities by making / forming questions and gaining answers from the students.

It was a nice experience ^{with} and a positive result & a healthy competition.

The class was divided into 4 groups
i.e. Group A, Group B, Group C, Group D

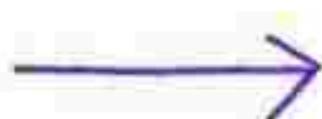

Marks Distribution Rule :

- ① For correct Answer +10
- ② For wrong Answer -2
- ③ Suppose, if the question is asked for Group A and the answer is wrong, the question is passed to group B and the answer came from Grp-B is correct, the marks = +5.

At the end, after adding the total marks / points, the highest point receiver was declared as 1st je winner.

Now, let us look at the Quiz questions :

QUESTIONS

Q1) Name the element having atomic number 9.

- a) N b) Na c) F d) O

Q2) Atomic mass of B is ?

- a) 11 b) 12 c) 9 d) 8

Q3) Name all the first 20 elements.

Q4) Valence electron of Be is ?

- a) 1 b) 2 c) 3 d) 4

Q5) Number of protons in Si are ?

- a) 12 b) 13 c) 14 d) 15

Q6) Number of bonds in $N_2(g)$?

- a) 1 b) 2 c) 3 d) 4

Q7) Number of bonds are formed by C-atom?

- a) 2 b) 3 c) 4 d) 5

Q8) Valence electrons of C-atom ?

- a) 4 b) 5 c) 6 d) 7

Q9) Sum of proton and neutron is called ?

- a) Atomic number b) Atomic mass
c) isotope d) isobar

- Q10) Draw Lewis dot structure of $H_2(g)$.
- Q11) Draw Lewis dot structure of $N_2(g)$.
- Q12) Draw Lewis dot structure of $O_2(g)$.
- Q13) Draw Lewis dot structure of C_2H_6 .
- Q14) Number of non-bonded electrons in $N_2(g)$?
a) 3 b) 4 c) 5 d) 6
- Q15) Number of non-bonded electrons in $O_2(g)$?
a) 7 b) 8 c) 9 d) 10
- Q16) Number of non-bonded electrons in C_2H_6 ?
a) 2 b) 4 c) 0 d) 5
- Q17) Number of non-bonded electrons in $H_2(g)$?
a) 1 b) 0 c) 2 d) 3
- Q18) Lewis dot structure of $Cl_2(g)$?
- Q19) Symbol of Potassium is ?
a) Na b) P c) K d) Po
- Q20) Symbol of Sodium is ?
a) S b) Na c) Ne d) So

Cleaning

Participation in school campus cleaning and beautification

Cleanliness means there is no dust, dirt, stains or bad smells. The goals of cleanliness are health, beauty, absence of offensive odour and to avoid the spreading of dirt and contaminants to oneself and others.

Need of School Campus Cleanliness :

- Cleanliness give rise to a good character by keeping our body and mind clean and peaceful.
- To prevent diseases like malaria, flu, typhoid, cholera, asthma etc.
- To keep our surroundings clean and beautiful.
- Clean environment brings positive and healthy environment for learning of students.

Beautification

Role of cleanliness in maintaining the beauty of school :

→ Dirty classroom and dirty campus lays negative impact on the visitor, students as well as teachers. Clean environment is the first step towards the beautification of school.

→ Keeping trash cans or dustbin in the classroom, washroom and near the ground and throwing garbage into the dustbin helps in keeping the campus clean.

→ A well-maintained and decorated garden of school campus is eye-catching.

→ Clean school campus also raises the pride of the school.

→ Clean toilet promotes good hygiene amongst the students and teachers as well as other non-teaching staffs.

→ Neat and clean classroom, corridors, proper gardening, all these helps school in its beautification.

Some glimpses
of Sanitation

To aware students about Sanitation & ventilation.

When schools have access to safe water, toilets and soap, children have a better environment to study, learn and realise their potential.

→ When schools have safe water, toilets & soap for handwashing, children have a healthy learning environment, and girls are more likely to attend when they are on their period.

→ Children who learn about safe water, sanitation and hygiene habits at school can reinforce positive life-long behaviours in their homes and their communities.

However, millions of children go to school everyday in unsafe learning environments, with no drinking water, no proper toilets, and no soap for washing their hands.

Q3 Reasons why Ventilation in Classrooms is Essential :-

- i) Air Quality - There is constant air changes within the parameters of the classroom. There is a constant stream of fresh air circulated and polluted stale air is extracted from the room.
- ii) Concentration - Poor indoor air quality is linked to decreased concentration levels. When 30 children are in one room there will be extremely high levels of CO₂. This will directly affect the performance and attention of those in the room, causing tiredness, drowsiness, and a lack of concentration.
- iii) Filtration - Mechanical ventilation units have built filters, that not only filter the air that is being exhausted, but the air that is being brought in from outside.

Ventilation is more important than ever with an airborne virus present. Covid has disrupted our lives, but we can make sure spaces are safe again through ventilation.

Organising
environmental
awareness
programme
in school
on the topic

"Hara Geela
Sukha Neela".

Organise environmental awareness program in school with collaboration of nearby society.

Environment Awareness Activities in schools encourage students to engage and protect the environment and help communities become more environmentally aware.

→ Say No to Single-Use Plastic

→ To bring awareness among school children.

→ Swachhta Rally

Swachhta Rallies & Nukkad Nataks for creating awareness for Clean and Green Earth. Students and teachers participate in Rallies and Nukkad Natak to spread the word.

→ Plantation

Students are made aware of the importance of environment and how planting trees play an important role.

Play to understand, with a purpose

The Peer Group with Teachers

Subject - free lesson

play an essential role

Peer group teaching in selected subject - free - lesson .

Peer group activities, whether occasional or frequent, can deliver research-backed benefits to both the student-student and student-tutor.

The benefits of peer group teaching are:

- Increased Literacy Scores — This improves the students in learning the subject more precisely and in various ways.
- Developed Reasoning and Critical Thinking Skills.
- Improved Confidence and Interpersonal Skills.
- Increased Comfort and Openness.
- Versatility.

Supervision of different school may highly observation schedule sum rating skill to check skill and student ~ teaching skill.

Supervise and evaluate
teaching and give suggestions
for improvement in following
points:

a. INTRODUCTION OF LESSON

To introduce the lesson, at first it is better to recall the previous knowledge of the students by asking them about the topic previously learnt.

The introduction of a lesson is established to give the learners some context, structure, and a direction about the content they are about to dive into.

The term 'beginning of a lesson' represents the first of the three essential teaching phases (start - development - closure).

It should introduce the students to a new topic and make them enthusiastic about it.

The start of the course is intended to inform the students about the new topic.

B. PRESENTATION OF LESSON

Lesson presentation refers to an effective use of selected resources, effective use of voice, hand, parts of the body, ability to demonstrate as the need arises, and effectiveness of class control and management.

The student will be able to select a topic, create a presentation that will provide information on that topic, and deliver the presentation to others in an interesting informative and engaging way.

A successful presentation begins with identifying an appropriate topic and carefully planning the content and delivery of the presentation.

Blackboard work

Blackboard work

c. BLACKBOARD WORK

A blackboard is a powerful visual tool that facilitates effective instruction in the classroom. Proper use of the blackboard not only provides learners with a holistic understanding of a lesson through visual representation.

The skill of blackboard writing adds variety to a lesson and draws the learner's attention toward the key concepts being taught.

→ Writing on a blackboard must be clear, with adequate spacing between the letters and a clear distinction between words and sentences.

→ The size of the writing should be such that it is visible to the very last row of students.

→ It should be large enough to be comfortably seen.

EVALUATION ON FEEDBACK

Evaluation in education setting is the process whereby we seek evidences we have designed for the students are effective.

Evaluation is very important part of teaching - learning process. It provides feedback for the teacher that how much students understood. It also suggest a teacher that necessary changes that need to be brought in current education system.

According to Goodwill, evaluation in school education is the process of judging whether the quality or extend of something measured is acceptable in terms of some criteria.

According to NCERT, evaluation is the process of determining the extent to which an objective is being attend the boards of education have been accomplished.

Continuing observation
with probes
showing reliability
and validity.

Questionnaire

Yes No

- | | |
|---|---|
| 1. Does the teaching staffs in the school have proper/good subject knowledge? | ✓ |
| 2. Does the non-teaching staffs in the school are there? | ✓ |
| 3. Does the school has sanitation facility? | ✓ |
| 4. Does the environment of the school is clean and green? | ✓ |
| 5. Does the school has proper drinking water facility? | ✓ |
| 6. Does the school has clean and safe washroom facility? | ✓ |
| 7. Does the school has proper ventilation facility? | ✓ |
| 8. Does the school has library? | ✓ |
| 9. Does the school has Computer Laboratory? | ✓ |
| 10. Does the school has Science Laboratory? | ✓ |
| 11. Does the school has playground? | ✓ |

Maintaining of school
library records and
interaction with Librarian
for their work.

Final

The word library comes from the latin word 'libraria' which means 'bookshop'.

Library is connected with a school and used by the students, teachers and staff of that school is called a school library.

According to John Dewey, "School library is the heart of the school. It not only deals with the children who are eager to read, but also with backward children who read with difficulty and so required verbal aids and all kinds of incentives to study."

- It provides suitable documents.
- It makes available text books & other additional reading material.
- It provides picture books with bold and large fonts to create the interest of children in reading.
- It helps reference books, dictionaries etc.
- It provides books of simple and meaningful stories of classics, panchatantra animals and birds to give moral values and ethics to children.

Types of Libraries:

- i) Public library
- ii) Academic library
- iii) School library
- iv) College library
- v) University library
- vi) Special library
- vii) National library

Aims & Objectives of Library

- To develop reading habit.
- To break the monotony.
- To refresh students.
- To help students in learning by issuing the books.
- Systematic arrangements.
- To preserve and maintain the books.
- To create proper atmosphere.
- To enable the students to know the basic rules of the library.
- To help the teachers.
- It develops self-learning skills of students.
- It nurtures good moral values and principles in the children.

School library is one of the most important and integral part of modern school. Library can be considered as a store-house of knowledge.

Physical Activities

Relay Race

Tie Race

Frog Race

Tie Race

To aware students

about physical fitness
exercise , yoga etc .

Exercise
and Yoga
of class VI,
VII, & VIII.

The first benefit of physical education is that it teaches ethical traits that students need to thrive in this competitive world.

→ Physical fitness is the key ingredient for a healthy lifestyle. This is why physical education is an important element in most schools. When students have regular fitness activities as part of their daily regimen, they stay fit and healthy. Regular physical activities daily help in better absorption of nutrients in the body & also helps in improving cardiovascular health and developing muscular strength.

→ Most physical activities that students do in schools are related to higher levels of concentration which in turn help with better behaviour.

→ During the physical education class, they learn to cooperate through various group activities and get a sense of identity from each other as well as of the team.

To know different laboratory
in school (maintenance,
structure of laboratory and
equipment / apparatus available
in laboratories)

There are basically four types of science laboratories are :-

- (a) Physics laboratory which should consist of :
 - (i) Laboratory
 - (ii) Store - cum - preparation room .
 - (iii) Darkroom .
- (b) Chemistry laboratory which should consist of :
 - (i) Laboratory
 - (ii) Store - cum - preparation room
 - (iii) Balance room .
- (c) Biology laboratory which should consist of :
 - (i) Laboratory
 - (ii) Store - cum preparation room
 - (iii) Museum .
- (d) Home Science Laboratory which should consist of :
 - (i) Laboratory
 - (ii) Store .

On the basis of the empirical study, 99.36 sq.m. for each of the three science laboratory and 83.49 sq.m. for home science laboratory.

Every school must have a very well-equipped laboratory and science rooms so as to facilitate classroom instruction and to create an interest in students towards the subject.

A preparation room is used for the assembly of apparatus to be used in a laboratory. Apparatus that is not frequently used or that has been specially fitted up for an unfinished experiment can be kept there.

It should be used for keeping tools, glass tubes and glass rods in current use, stirrups and terminals, wires etc., which science teachers in need.

The chemistry laboratory should be on the ground floor and should be placed on the side of the school away from prevailing wind. Windows should be provided along two opposite sides of a laboratory and there should be ventilation.

A laboratory should have shelves, cupboards, a long bench, a long blackboard and wall-space for the display of pictures, charts and diagrams. There should be adequate water supply in laboratories. Besides, there should be suitable arrangements for supply of gas and drainage.

A science laboratory should have two doors, preferably one at either end, opening outwards, so that in case of fire or other emergencies those in the room may leave it without danger or confusion.

Infrastructure of the School

4TH WEEK

Prepare request on:

- Availability of finance / donation
- Transformation system
- Infrastructure
- Teacher - student ratio etc.

AVAILABILITY OF FINANCE

Public financing of education, to a large extent, depends on the policy and budgetary priorities for education. In order to ~~pass~~ assess the adequacy of the prevailing quantum of public financing for the sector, it is useful to have a rough estimate of how much the government should spend on financing quality education taking into account the existing policy framework for public provisioning of education. Though available literature shows light on the quantum of public resources required for education, relevant data on how much the Union and State Govt. are spending on education is not available in a timely manner.

Jake's suggestion
for improvement in
overall activities
of school.

Improvements :

- Technology Usage
- Teacher Training
- Cultural activities
- Motivational Guests
- Student Counselling
- School Maintenance
- Parent - teacher Communication
- Activities Outside Classrooms.
- Campaigns
- Sports Activities and Clubs
- An engaging environment
- Communication Of Needs
- A positive atmosphere

Pushpa

Know about maintaining school records.

→ Preparation and Publication of school results .

→ Income – Expenditure records .

Principal of a school is the ultimate responsible person for maintaining school records. However, it would be practically impossible for him/her to do so alone. Hence, clerical staff and teachers assist him/her in the maintenance of school records.

- (i) Keep all records up-to-date.
- (ii) Keep a list of all registers maintained in the school. Give a serial no. to all registers and indicate along with name of the register in the above-mentioned list.
- (iii) State that each record should be accurate, reliable & valid.
- (iv) Attendance Register
- (v) The School Calendar
- (vi) Teacher's Attendance Register
- (vii) Cash book

The proper functioning of the system and to streamline all matters in the school & proper record maintenance is required.

- The school record is the back-bone of the school history.
- It contains all sorts of information about school and the activities performed in it.

Organisation of Cultural activities.

Importance of cultural activities in school is the innermost core that shapes everything that goes on inside a school. It forms not only the base but is also reflect the end result of various activities.

Culture of a school has the power to make or break it.

Psychologist R.S. Barth says, "the cultural activities in school has far more influence on the life and learning of students in the campus than the department of education, the school board, or even the best principal can probably have."

**Report on suggestion for
development of school activities.**

- Diagnostic classes for students.
- Faculty Improvement programmes.
- Different level of teaching behaviour.

Suggestions for the betterment of school activities are:-

(i) Enhancing the School's Appearance

→ Beautify the School.

(ii) Start a Garden.

(iii) Paint a mural.

(iv) Lead a campaign to make the school grounds healthier.

(v) Improving Opportunities

(vi) Boost activities and clubs.

(vii) Make the School more engaging.

(viii) Encourage healthy eating.

(ix) Making school inclusive

→ Let everyone join in.

→ Be nice to new people.

→ Don't badmouth others.

→ Don't accept bullying.

→ Gathering Support.

SKILL OF INTRODUCING THE LESSON

Name of the Pupil-Teacher: Shashiksha Mahale
 Roll No: 14 Subject: Chemistry
 Class: IX Sub-Topic: States of Matter
 Date: 24/09/2022 Duration Expected: 8-9 min.

Previous knowledge Assumed:

S.No	Pupil-Teacher's Activity	Pupil's Activity	Use of Teaching Aid	Use of Black Board
1.	Matter is defined as ?	Anything that occupies space and have mass.		
2.	Sand belongs to which state ?	Solid state	 pen	
3.	Milk belongs to which state ?	Liquid state	 Water	
4.	Carbon Dioxide belongs to which state ?	Gas state	 Balloon	
5.	How many states of matter are there ?	Three		

A graph illustrating the intersection of a demand curve and a supply curve. The vertical axis is labeled "Price" and the horizontal axis is labeled "Quantity". A downward-sloping demand curve and an upward-sloping supply curve intersect at a point labeled "P".

DECLARATION OF THE TOPIC

Pupil-Teacher's Activity	Pupils' Activity	Chalk-Board Summary
<p>After getting the proper answers of the questions pupils teacher said that today we will study about the topic 'States of Matter' in detail.</p>	<p>Students will listen carefully and write down on his/her own notebook.</p>	<p>TOPIC : Matter Around Us</p>

EVALUATION SHEET (RE-TEACH)

SKILL OF INTRODUCING THE LESSON

Name of the Pupil-Teacher: Shashiksha Makate

Roll No. 14 Class IX

Subject Chemistry Topic States of Matter

Teach Duration 2 hours Date 21/9/2022

Components	Not At all 0	Satisfactory 1	Average 2	Good 3	Very Good 4	Excellent 5	Outstanding 6
1. Teacher used previous knowledge of the pupils. (प्राचीन ज्ञान का प्रयोग किया गया)			✓				
2. The device used was appropriate. (उपकरण की उपयोग साधारण तरह से ही)			✓				
3. There was continuity of statements and of questioning. (इनकार और प्रश्नों में सम्पर्क था)				✓			
4. Teacher attended relevant statements and questioning. (विषय का विवर और असंबोधित नहीं)				✓			
5. Almost every question of the teacher was followed by correct pupil's response. (लगभग वालीक प्रश्न को जारी रखा गया तभी उत्तर दिया गया)				✓			
6. On the whole, the introduction of the lesson was effective. (कुल मिलाकर यह की प्रवाहन प्रभावशाली थी)			✓

SKILL OF QUESTIONING

Name of the Pupil-Teacher... Shachisha Mahto
 Roll No. 14..... Subject: Chemistry
 Class: IX..... Sub-Topic: States of Matter
 Date: 22/9/2022..... Duration Expected: 2-3 hrs

OPENING STATEMENT

S.No	Pupil-Teacher's Activity	Pupil's Activity	Use of Teaching Aid	Use of Black Board
1.	Name three states of matter ?	Solid, liquid & Gas	SOLIDS 	
2.	Name one property of solid ?	Solids have definite shape and definite volume.	Book → has definite shape → has definite volume → definite boundary.	
3.	Name one property of liquid ?	Liquids have definite volume but not definite shape.	LIQUIDS  water	

S.No	Pupil-Teacher's Activity	Pupil's Activity	Use of Teaching Aid	Use of Black Board
4.	Name one property of gas?	Gases neither have definite shape nor definite volume.		
			 <p>The diagram illustrates the properties of gases through a cylinder. The cylinder is shown with a blue base and a white body containing small dots representing particles. A pink arrow points from the cylinder towards the text 'vaporisation'. Above the cylinder, the word 'GAS' is written in pink, with arrows pointing from it to the cylinder and the text below. Labels 'gas' and 'water' are also present near the cylinder.</p>	

CLOSING STATEMENT

After getting proper answers by the students, questions asked by the pupil teacher in skill of questioning by using such teaching technique and teaching aid, the teaching process becomes very effective and successful.

C. Long type questions answers:-

जल में अविद्युतीय और्डिनेट वा अपौरुष पदार्थों के वितरण के कारण इनकी गुणवत्ता वा विस्तृत जाने के जल प्रदूषण का जाता है, जल प्रदूषण के कारण जल के बीच वाता वाता अविद्युतीय वो परिवर्तनों का जाता है।

जल प्रदूषण के कुछमुख्य के कारण हैं, जोकी गैसोंगों, मनुष्य तथा उनके जीवों के अल-शृंग, अपौरुष पदार्थ एवं लाकड़ जैसे विल जाते हैं तथा जल को गंदा करते हैं जो जल वनस्पति वैज्ञानिक जल में शास्त्रीजीकी कीटों को जाती है।

जल के प्रदूषण के कुछ वैश्वजात हैं, कुछ लोग यही के लिए जल में नहाना-दौना तथा जलात्मकों को बेखाल है जिसकी प्रतिक्रिया हो जाता है, कुछ लोग यही के लिए जल में जल विषयों को कीमार पढ़ जाते हैं।

जापनी कानूनी कानून-पाला जानेके बीच जल-प्रदूषों को देखता है, लैंड्फॉल्म दी उच्च जीव ऐसे हैं जिन्हें इस जलभी नहा नहाने से नहीं कैसे बचते हैं केवल सहजानी के लिए इन्हें अकेले ही उच्चमानीप रखते हैं।

साहाजीवों को नार भूल लों तो कौन जाए ? , ये वही है - जीवाणु, प्रोटोजीवा, कंक एवं उच्च जीवाणु।

EXAMINATION RESULT

CLASS - VIII 1A

रूप संख्या	छात्र वा छात्री का नाम	प्राप्ति	प्राप्तिका	अनुदान

Report on Organising Learning (Lesson plan)

Under the B.Ed Course, students are sent to internship for learning the art of teaching in the real world. Before going to classroom, students prepare Lesson plan to execute their proper plan in front of students. In order to develop the skill of organizing learning, students are asked to prepare lesson plan during this internship programme. Total 70 Mega lesson plans were delivered during this internship period, 10 Micro Teaching lesson plan (in which 5 skills with observation schedule cum rating scale and 5 demonstration lesson plan) were conducted at college. As well as lesson plan, students also prepared model, chart paper etc related to the topic. In this way our students execute their plan during the internship.

Report on Individualised Educational Programme

Individual Educational Plan (IEP) is a written plan/programme which is related to students academic goal and method to obtain these goals. This plan is followed by our institution. When the pupil teachers go to 16 week school internship period. During this period, they commit action research in which they observe the problem of school-based learning environment and note down it. They focus on student, collect and organise data after that analysis data and lastly taken action to prepare final report with the help of mentor. The pupil teacher of our institution commits such types of action research in the practice teaching school during the internship period regularly.
