Circular and relevant policy on the Environment and Energy Conservation

Purpose:- To systematically manage energy and minimize environmental harm, the policy suggests exploring renewable energy sources to reduce air pollution, utilizing manpower to clean-up the environment and identifying alternatives to natural resources amid ongoing energy storages.

Scope:- Raising awareness about Energy Conservation and environmental health sustainability.

Preview:- The policy efficiently put into practice to include all stakeholders, such as internal and external participants, all staff and all students.

Accomplishment:- Our Institution is devoted to conduct green literacy programme through several awareness programme, workshop and activities to save energy and to protect environment.

Prominent Measure:- In adherence to the policy promoting environmental health and energy conservation, our institution has implemented several concrete measures and key initiatives, as outlined below:-

- (i) To examine our energy usage and measure its impact on the environment.
- (ii) To instal LED bulbs in the complete campus to save energy.
- (iii) To establish an organised waste management system.
- (iv) To develop rain water harvesting unit and to conduct tree plantation drive.
- (v) To promote for the adoption of advanced technology to lower energy use, atmospheric emissions, and noise, particularly from our vehicle fleets.
- (vi) To observe and respond to emerging environmental and energy issues.
- (vii) To actively collaborate with local communities and authorities to raise awareness about energy efficiency and sustainable development.
